PROFESSIONAL SUMMARY

CNC Auto Lathe Machine Operator with 3 years of experience in machine operation, precision size adjustments, and dimensional checking. Experienced with pre-loaded programs, machining operations, and measuring tools. Currently learning HTML and CSS.

WORK EXPERIENCE

CNC Auto Lathe Machine Operator

Hussein Engineering Works Limited | 2023 – 2026

• Operated CNC auto lathe machines using pre-loaded programs.

• Made precision dimensional adjustments to maintain required part sizes.

• Performed turning, facing, boring, and threading operations.

• Used Vernier Caliper and Micrometer to check part dimensions.

• Checked finished parts against given dimensions and engineering drawings.

• Worked independently and coordinated with the team when machine issues required support.

• Usually operated one machine and worked on another machine when assigned.

TECHNICAL SKILLS

Machine & Operations	CNC Auto Lathe Operation; Mori Seiki CNC Machine; FANUC Controller; Turning; Facing; Boring; Threading
Measurement	Vernier Caliper; Micrometer; Precision Dimensional Checking
Web Development	HTML and CSS (Beginner – currently learning)

EDUCATION

Matriculation (Science) | The Little Scholar School | 2021

ADDITIONAL INFORMATION

Available for suitable opportunities in CNC / Lathe Machine Operation.
